## Respite care for your loved ones

Guests have access to the same amenities and activities as residents.

### WHAT IS RESPITE CARE?

Respite care is short term accommodation and services that is provided by Chinook Village for dependent adults who are looked after by personal caregivers. The intention is to allow caregivers a break to get away or just take a brief time off from their demanding caregiving responsibilities. At Chinook Village we provide the same level of care that we would provide to any of our own permanent supportive living residents.
